SUMMARY

Aspiring computer science student skilled in Java and Python. Successfully tackled complex algorithms and developed notable projects like a dynamic Snake game. Excelled in coding challenges and created engaging user interfaces. Ready to apply technical skills and innovative thinking in a fast-paced, growth-oriented environment.

TECHNICAL SKILLS: HTML/CSS, Excel, Tableau, Flask

Languages: Java, Python

Database: PostgreSQL, MongoDB

Version Control: Git

WORK EXPERIENCE

Accenture

Data Analyst Intern

Mumbai, Maharashtra

06/2024 – 07/2024

- Collaborated with a 3 member team to deliver a comprehensive end to end solutions.
- Worked on assigned task.
- Offered support and guidance to numerous software development undertakings.

The Sparks Foundation

Data Science Intern

Mumbai, Maharashtra

05/2024 – 06/2024

- Developed Machine Learning model for both classification and regression tasks.

Intrainz

Machine Learning Intern

Mumbai, Maharashtra

06/2023 – 07/2023

- Oversaw tasks related to data extraction and retrieval.
- Efficiently perform data cleaning.
- Utilized ML linear regression to accurately forecast valuable insights.

EDUCATION & OTHER

Vidyalankar Institute of Technology, Mumbai

2022 – Expected 2025

B.E. Information Technology

Cusrow Wadia Institute of Technology, Pune

2019 – 2021

Post SSC Diploma in Mechanical Engineering

PROJECTS

Podcast Website

- Created a fully responsive podcast website utilizing HTML, CSS, and JavaScript.
- Ensured cross-browser compatibility and optimized for performance on various devices.

WhatsApp Automation

- Developed a Python script to automate WhatsApp messaging using Selenium.
- Enhanced communication efficiency and effectively managed workload through automation.

Hospital Management System

- Developed a robust Hospital Management System using Core Java.
- Implemented features using Java AWT and Swing to enhance the user interface and user experience.

Music Store Analysis

- Conducted comprehensive data analysis for a music store using SQL.
- Manipulated and worked on datasets to generate insights and improve business decisions.
